

Application No. 10/719,387  
Amendment dated November 9, 2005  
Reply to Office Action of September 22, 2005

Docket No. 1232-5213

### REMARKS

Applicant submits this Amendment in response to an Office Action dated September 22, 2005 (i.e., *Ex parte Quayle*). The September 22, 2005 Office Action indicates that the drawings have been objected to because they include reference characters (i.e., elements 61, 62 and 63 in Fig. 5) not mentioned in the description.

In response, relevant portions of the specification have been amended as indicated above. For example, a sentence that reads "The photo timer module 6 is composed of a detection unit 61 and an amplifying unit 62 that amplifies signals, and mounted onto a frame 63 made of a metal" has been added at the end of the second full paragraph of page 19 (i.e., lines 15-20).

Applicant believes that the above-indicated amendments to the specification address the objection to the drawings.

Accordingly, Applicant believes that the application is in condition for allowance and such action is respectfully requested.
